

# Major ProLife Groups in Kansas

Rev. 2006s

Page 1 of 2

Kansas is the Abortion Capital of the Western World, home of the most prominent late-term abortion facility in the United States, Canada, Mexico and Europe. The Tiller Abortion Facility in Wichita performs abortions throughout all nine months of pregnancy, and does an average of 167 abortions per month at \$300 to \$12,000 per kill. This financial bonanza has upset the political balance in Kansas, which is an otherwise conservative Christian state. The Kansas prolife groups listed here stand in opposition to the Kansas abortion industry, and are deserving of your financial support and volunteer service.

---
