# KCFL Unequivocally Condemns the Shooting of Abortionist George Tiller.

The Kansas Coalition for Life the work of the proLife movement. Unequivocally Condemns the We urge the media to report Shooting of Abortionist George Tiller. responsibly and truthfully in this regard.

Although at the time of this writing, it is not known who killed Abortionist Tiller, we do know for certain that this crime was NOT the work of any true proLife person. A true proLife person respects human life as a gift from God, and leaves all life and death decisions to God Himself.

This killing – if it is in any way connected to a genuine proLife group, has the potential to set back the proLife movement by 20 years or more.

The Kansas Coalition for Life asks all reporters and commentators to make a clear distinction between lawless thugs who act on their own accord, and the good proLife people who obey the law, seeking a change in abortion laws via peaceful means and the legislative process.

It is completely misleading, for the media to imply, in any way that this is

KCFL would have much preferred that Abortionist Tiller follow the footsteps of Dr. Bernard Nathanson, a former abortionist who is now one of America's most prominent and effective proLife leaders.

In 1993 Shelly Shannon, who had no connection whatsoever to any proLife organization, brought shame on all proLife groups by her stupid action, when she attempted to kill abortionist Tiller as he entered his abortion facility on East Kellogg Drive at Bleckley Street in Wichita.

Tiller's death comes at a time when all recent polling data shows that the peaceful proLife message has the support of a majority of American voters. We hope this terrible news does not hurt the steady progress that the proLife movement has made by peaceful legal means over the years.
